Your homework

- Miyu
- Airi
- Ryo

Today's coding topic: if, else

```
math = 80
2 	ext{ science} = 96
    english = 90
    total = math + science + english
    avg = total / 3
6 print('合計点:{}'.format(total))
    print('平均点:{}'.format(avg))
```

```
math = 80
science = 96
english = 90
total = math + science + english
avg = total / 3
print('合計点:{}'.format(total))
print('平均点:{}'.format(avg))
```

□→ 合計点:266
平均点:88.6666666666667

```
num = int(input("好きな整数を入力してください>>"))

if num == 7:
    print("ラッキーセブンですね!")
    print("私も7が好きです。")

else:
    print("へー。")
    print("私は7が好きです。")
```
